

Cells Into Organs: The Forces That Shape The Embryo

by John Philip Trinkaus

Cells into organs (the forces that shape the embryo). by John Philip Trinkaus, Prentice-Hall Inc, 1984. £37.90 (xxvi + 543 pages) ISBN 0 13 121632 5. Cells into Organs: Forces That Shape the Embryo (Foundations of Developmental Biology) by Trinkaus, John Philip and a great selection of similar Used, New . Cell Surface In Embryo Genesis Carcinogenesis - Google Books Result Cells into Organs: The Forces That Shape the Embryo: John Philip . Epithelial machines that shape the embryo We conjecture that within vertebrate embryos, long-range mechanical . Thus, physical forces or stress fields are essential requirements for executing require extensive changes in the shape of the early vertebrate embryo. However, the ECM is not simply a static scaffold: cell motion involves cell Cells into Organs. CURRENT TOPICS DEVELOPMENTAL BIOLOGY - Google Books Result 9 Dec 2013 .
